## TECHNICAL, ACQUISITION, AND BUSINESS SUPPORT SERVICES (TABSS)

Prime Contract  
HSCG23-12-D-ATB004

### ZANTECH IT SERVICES, INC.

is a SBA-certified 8(a) small business with a proven experience base of more than 15 years in the delivery of program management and information technology (IT) support services to Federal Government customers. Zantech's SEI CMMI® Maturity Level 2 assessed, ISO 9001:2008 registered Quality Management System (QMS) reflects our commitment to providing quality service to our customers.

### THE ZANTECH TABSS TEAM

has partnered with the Department of Homeland Security (DHS) on many Program Management, Engineering and Technology (PMET) (Domain 1) type support services efforts and looks forward to continuing to provide similar Department-wide services under the Technical, Acquisition and Business Support Services (TABSS) contract. Our TABSS Team understands the U.S. Coast Guard (USCG) and DHS and their diverse mission responsibilities.

Many of our Team members have current experience supporting DHS and are capable of continuing to provide support in a cost effective manner. Our large business Team members help to ensure that we have the depth and breadth of resources to meet any TABSS Task Order (TO) requirements. Our Team also consists of a mix of small businesses, each of whom provides the expertise and niche experience to responsively ensure DHS PMET requirements are met. Zantech is committed to providing DHS with the management and oversight to ensure that our Team provides effective solutions that provide best value to the Government.

We bring to the TABSS contract a wealth of knowledge and experience supporting DHS requirements around the world that makes us a valued and trusted partner over the life of the TABSS contract. We will be proactive in bidding and executing TABSS TOs to assist with the cross-organizational mission of protecting the homeland, deterring crime, detecting and countering terrorism, and supporting a myriad of other responsibilities.

### PROGRAM MANAGEMENT

The Zantech Team's overall corporate experience encompasses many contracts that support program management support services. Our extensive experience supporting a variety of Government agencies in both the classified and unclassified environments demonstrates that the Zantech Team minimizes performance risk for TABSS customers.

#### Specific Team Member Support Services

##### Examples Include:

- Engineering, Management & Integration, Inc. (EM&I) supported the transformation of all 22 DHS organizations into a consolidated finance, procurement, asset management, and travel framework.
- Technical and Management Resources, Inc. (TMR) supported DHS with a strategic plan for business processes, change management procedures and process flows to support the EAPM.
- Catapult Consultants, LLC provided strategic analysis of the Screening Partnership Program for TSA
- Zantech supported acquisition planning and performance auditing for the Defense Integrated Military Human Resources Systems (DIMHRS) – Army Project Directorate
- Schafer supported the startup of DHS Domestic Nuclear Detection Office (DNDO) by defining, developing and implementing business processes to standardize DNDO programs.
- Savvee Consulting Inc. provided IT governance, capital planning, IT portfolio management to DHS agencies: USCIS, TSA, FEMA and NPPD.
- Pharos Group provided maritime security operations, training, education and balanced scorecard strategic planning services to DoD agencies and international partners.
- ASM Research provided IT integration and advanced analytical services to numerous DoD agencies.

### ENGINEERING AND TECHNOLOGY

The Zantech Team provides engineering and technology support services to multiple Federal Government agencies. Team members provide operational support to agencies which includes enhanced mission support applications, information security, and modeling and simulation expertise.

#### Specific Team Member Support Services

##### Examples Include:

- Zantech supported the implementation of an enhanced OSHA Information System (OIS) for the Department of Labor.
- Serco provided C4ISR systems engineering, enterprise architecture, and program planning support to DHS, Coast Guard, Navy and Air Force.
- Scitor Corporation supported the National Reconnaissance Office in the engineering and development of requirements for remote intelligence and collection evaluation.
- Solers provided planning, engineering and technical support to the DoD Chief Information Officer (CIO).
- BRTRC designed, procured and provided on-site installation of the Department of Defense Biometrics Management Office Biometrics Demonstration Facility.
- Sona Networks provided Enterprise System Life Cycle Management Support (ELMS) to the Department of Health & Human Services Food & Drug Administration.
- Binary Group provided technical architecture documentation, enterprise configuration management, and quality assurance for the Military Sealift Command's Command, C4S directorate.
